

A. You can put all types of food waste here.

B. Put only plastic items and aluminum cans into this bin.

C. Glass bottles only.

D. Do not touch the bin.

III. READING COMPREHENSION (3.0 PTS)

Ecotourism is a responsible form of travel to natural areas that conserves the environment and improves the well-being of local people. Unlike conventional mass tourism, which often leads to environmental degradation and overcrowded resorts, ecotourism focuses on environmental education, wildlife preservation, and cultural exchange. Travelers who take part in ecotours often stay in eco-friendly lodges, use bicycles or walk instead of traveling by motor vehicles, and participate in conservation projects such as tree planting and beach cleanups. In Vietnam, destinations like Cat Tien National Park, Phong Nha - Ke Bang, and the Mekong Delta are leading examples of successful ecotourism development.

10. Ecotourism harms the environment more than mass tourism. → **TRUE / FALSE**
11. Ecotourists often engage in activities like tree planting and cleanups. → **TRUE / FALSE**
